EzSupport – AZ Offers More Features – More Solutions

FamilyDocs Section

- Customize provided forms or add any type of family law forms.
- Centralized data entry screen categorized for Mother/Father/Children etc.
- Enter data once and assemble any document from the library of forms.

Child Support Worksheets

- Organized data entry sections for income, worksheets, etc.
- Entered values can be automatically converted into required Monthly format.
- All child support calculations including parenting adjustments are automatic and in accordance with AZ Guidelines.
- Develop and compare many worksheet scenarios, e.g. lower overnights or different income, all within same client file.
- All worksheet alerts and exceptional items are listed in one central place for easier tracking.

Financial Information

- Organized data entry sections for employment, income, expenses, assets and debts.
- Produce required forms such as affidavit of financial information, inventory, sensitive info sheet, etc.
- Add an unlimited number of assets and debt items. Printed statements will automatically adjust.

Productivity Features

- Internal case notes for each section of the program.
- All forms are fully customizable. Save any prepared form as Word or PDF and email, all within the program.
- Track time spent with built-in timer and produce a log statement for billing purposes.
- Add an unlimited number of your own forms and generate error free documents.
